EDUCATION

Bachelor of Technology (Artificial intelligence)
Newton School of Technology, Rishihood University

2025 - 2029
Grade: Pursuing

Intermediate (Class XII)
D C Model Sr Sec School Ferozepur Cantt Punjab

2024 - 2025
Grade: 86.8%

Matriculation (Class X)
Dass and Brown World School Firozpur Punjab

2022 - 2023
Grade: 94.8%

PROJECTS

Launchpad ([Github](#)) ([Demo](#))

April 2026

- **Developed a centralized opportunity aggregator** that consolidates hackathons, internships, and jobs from multiple platforms into a single, personalized feed.
- **Engineered a recommendation engine** to filter opportunities based on user-selected skills, academic branch, and interests, improving discovery efficiency.
- **Implemented dynamic deadline tracking** and visual badges using React state management to help users prioritize closing applications.
- **Architected a responsive UI** featuring advanced search, multi-category filtering, and a persistent bookmarking system for saved listings.

Picked & Packed ([Github](#)) ([Demo](#))

March 2026

- Built a responsive e-commerce storefront with **Vanilla JS** and **Tailwind CSS**, consuming the **DummyJSON REST API** to render 194+ products with category filtering, cart, and wishlist
- Implemented **localStorage** caching, dynamic product cards, mobile-first UI with floating bottom dock like nav.

Portfolio ([Github](#)) ([Demo](#))

January 2026

- Built a responsive personal portfolio website using **React 19** and **Tailwind CSS v4**, deployed on Vercel
- Implemented dynamic typewriter animation and integrated Lucide React icons for an engaging, polished UI
- Configured **Vite** as the build tool for fast development and optimized production builds
